## Rudozem street dog rescue

WWW.STREETDOGRESCUE.COM

- Matty was very ill earlier this month. We honestly thought that he wouldn't make it. He did pull through and is now a happy dog. We did manage to remove most of his coat but still need clippers for some knots which are very close to his skin. If any one has any clippers that they don't use, we would be very grateful for them
- We heard unofficially that the council are not prepared to help with land, premises or finance either this year or next. This was a major disappointment but for now we will just carry on doing what we are doing until we can raise enough money or get funding, so that we can buy some land or premises.
- Fluffy, who went to Holland on the first trip, had to be rehomed after a child developed an allergy. We have adoption contracts with all new owners which means that in cases like this they have to inform us. Sil and Vera were able to find a lovely home for Fluffy (Mila) and she is now happy and settled.

### 5 NEW PUPS

Last week, we took in 5 pups within 2 days. Pickle, was brought to us after a neighbour saw him being thrown from a car. The next morning, Tony found 2 pups, Molly and Pixie, that had been dumped at the landfill site. Hours later we found a tiny pup, Mini, on the streets in the town centre. The next day we found Mini's litter sister Linka, also in the town centre. All pups were very hungry and full of parasites and have now been treated for worms and fleas. Pickle had a very bad flea allergy and his skin is very sore. He is also extremely underweight. The other 4 all seem well. All pups are very friendly and are at home with us and being cared for until good homes are found for them by our team in Holland.

Pickle

Molly

Pixie

Mini

Linka

### 8 PUPSWENT TO THEIR NEW HOMES

Pippy and Poppy were 2 very frightened little girls, found on the streets. Suki, Missy, Mouse, Bobby, Laska and Scamp were dumped on the landfill site in March. All our now in loving homes in Holland. We have heard from all the new families and they are

all doing well. Once again, Keith and Chris from Pet Chauffeurs, took the dogs and did an excellent job of looking after them. They are due to make a 3rd trip at the beginning of September. Thanks to Keith and Chris, Sil and Vera, all the new owners and people

who support us.

### Supplies from Holland

Earlier this month, we received much needed supplies that had kindly been donated by people in Holland. Our thanks to Trees and family who supplied the van, to Dimi and Danny for driving here and to everyone who donated items. The dogs have certainly benefited from all that we received.

### Elf and Rosie

Elf and Rosie were the only 2 remaining dogs in the forest. They were missing for 3 days and on the 4th day, we found Rosie badly injured. She had a cut to her back leg and a severe injury to her tail which had exposed the bone. She was in a great amount of pain. Rosie is now at home where we can care for her but we are extremely concerned for Elf who has now been missing for 10 days.
