

Rudozem street dog rescue

www.streetdogrescue.com

- A couple of days ago, Tigger our little rescue cat was run over and killed. The two young black rescue kittens have strangely disappeared and not been seen for nearly 2 weeks. We have also been told that the little kitten from next door has also gone missing
- 10 dogs were micro-chipped and vaccinated this month. These included some of our permanent residents like Barney, Misty, Bigdog, Foxy and Ranger. William and Ranger were neutered. Foxy was also due to be done but to his relief, the vet ran out of suturing thread, so Foxy will be done this week. Ranger and William recovered well.
- Charity bands are now for sale on the webstore. T shirts and blank greetings cards will be available later this week.
- Julie and Colin Lewis, who did the fun run to raise funds, will be doing a collection in Derby centre on 12th December. If anyone can help, please contact us.
- We need to raise funds for transport of adopted dogs to Holland in January. Last time we fell far short of our target. Please help if you can and pass the word on to as many people as you can. Thank you.

9 NEW RESCUE DOGS

We have taken in 9 more dogs this month. Luke found Khan in the town centre. Khan was running about in a blind panic. Luke managed to grab him and we brought him home. Khan was terrified of people and other dogs. He just cowered and was too afraid to even look at the food that we put down for him. Since then he has come on really well. He loves a fuss and has learnt to play with other dogs.

Kerry and Tony saw Tristan in another town. He was being beaten by a woman with a brush. Despite being beaten, he ran straight to Kerry who picked him up. Tristan is a very big, friendly and outgoing pup.

Three very tiny pups were left in a box outside our gate. We since found out that the mother is a small hunting dog.

The people kept the male pups but didn't want the females.

Kerry and Tony managed to catch 4 pups that were wandering about the roads at a dangerous junction. Only one of these pups would go to them. It was very difficult to catch the others. We don't know what had happened or what had been done to these pups, but they screamed in terror at human contact. Two of them are now very friendly and the other two are slowly coming round.

Khan, Tristan and the pups.

See website for updated pics and videos.

15 pups arrived safely in Holland on 1st November. All are settled in their new homes. They are all doing well and many of them have started puppy school. Keith and Chris (Pet chauffeurs) did a brilliant job of looking after the pups on the journey.

Pictures of the pups arriving and in their new homes can be seen on the website.

Ollie

We were all heartbroken when Ollie who was found by Chris and Keith, sadly died. Despite being loved and having plentiful food for the first time in his life, he had chewed and eaten bits of his dog bed and other foreign objects which had caused internal damage. He was taken to the vets but they were unable to save him.
