RUDOZEM STREET DOG RESCUE
VOLUNTEERING / VISITING AT RSDR DOG SHELTER

Dear Volunteer / Visitor Applicant

Thank you for your interest in our volunteer program. RSDR welcome volunteers and visitors at the dog shelter, in Rudozem Bulgaria.

Rudozem Street Dog Rescue is a Non-Profit foundation that rescues street dogs in Bulgaria and finds them loving homes. Our mission is to renovate the RSDR building and have a shelter/clinic where we can continue to save dogs, start a neuter / spay programme and offer free sterilisation, and integrate education on Animal Welfare to the local community.

RSDR receives no government funding and depends solely on donations and support from the public to continue its life saving work.

The situation of Animals in Rudozem

There are many street dogs and street cats in the area of Rudozem. Many of them are starving and hungry, have horrible skin conditions and are abused by the local community.

Many puppies are born on the streets and are left to survive and in the winter months they usually freeze to death.

The majority of the street dogs are not dangerous. Many of them are terrified of people and would not go near them. Most of the time, if a human went near a street dog, they would most likely run away. The dogs are extremely wary of people, not used to human contact and are scared you are going to hurt them. It takes many weeks and months to gain the trust of these animals.

Animal Welfare is not enforced in Bulgaria and many people are brought up to fear street dogs and treat them like vermin. You will see many people throw stones at the dogs, kick them, beat them with sticks, or even shoot them. It is no wonder the dogs are so scared of mankind. They have not been treated kindly.

Since being a registered foundation in March 2009, attitudes have slowly changed, with people now instead of dumping puppies in the landfill or town centre, they have started dumping puppies outside the house in boxes or bringing them to us instead of shooting them. We are hopeful, the longer we remain in Rudozem, the better off street dogs will be with changing attitudes in people

RSDR DOG SHELTER PROCEDURES

Renovations to Building

As the building for the RSDR Dog Shelter is currently not constructionally sound. All volunteers/visitors must sign a Volunteer Application Release Form releasing RSDR from any liability or injury claims.

Chain of Command

All Volunteers must adhere to the chain of Command – with fulltime staff at RSDR being in charge. Volunteers must comply with any directions and instructions set out by RSDR staff, be polite, non-abusive and respectful at all times. Failure to comply with these rules, may result in volunteers being asked to leave.

Dress Code

We must insist that you wear full length trousers or jeans and preferably long sleeved tops. This is for your own protection as even little puppy claws can leave nasty scratches down your arms. Wear closed toed shoes with soles that will not slide on the concrete. Dangling jewelry is likely to become snagged and can be a hazard (may also become damaged or broken).

Induction

On arrival, volunteers will be given a brief tour of the shelter. Our daily routine will be explained to you and this gives us a chance to discuss with you areas in which you feel able and comfortable to help out. We will advise you of any dogs that you are not to approach or enter their pens.

Shelter times for Volunteers

Shelter visiting hours for volunteers / visitors are between **11:00am to 3:00pm daily**. These hours may change depending on circumstances.

As explained below in our dog guideline, our shelter staff have a strict schedule they must adhere to morning & afternoon with cleaning the dog pens. A lot of our dogs can be quite fearful, and will not return to their pens if there are strangers around, so we ask volunteers to come in the above times only whilst our general cleaning routine is taken care of. There will be plenty of jobs for volunteers during the above times that we will need help with.

Age

We ask that all volunteers be at least a minimum of 21 years old and over, or be accompanied by an adult parent/guardian 21 years old and over. Please enclose **Photo ID** (passport or Drivers license) with your application.

Attitudes to women

If you are female volunteering and plan to travel alone in Bulgaria, we recommend you travel with a friend or partner to Bulgaria, due to the cultural differences with attitudes towards women.

General Information

Parking will be pointed out to you on arrival. Smoking is only allowed in designated areas and not in the main buildings where the dog/cat pens are situated.

Volunteers/Visitors must be aware that we always have the maximum number of animals that we can cope with. As hard as it may be, we ask that volunteers/visitors do not collect animals on the way to the shelter. It is also not practical for volunteers/visitors to bring their own animals with them. Having so many dogs, we cannot allow time for volunteer/visitors to be using the yard/exercise areas for their own dogs.

Dog Guidelines

Why are shelter dogs different? Dogs in a shelter are not the same as your family pet. Your dog knows his surroundings and is familiar with your moods and what your expectations are. A shelter environment is very different. Many of our dogs have been badly abused and have serious trust issues.

Pushing a fearful dog or a dog that doesn't know you to give a kiss or to receive a hug may be asking for a bite. Your dog at home might accept your behavior, while a strange dog may see your behavior as a challenge.

It is important when working with or around fearful dogs that you always let the dog come to you in its own time. Many people are familiar with the "fight or flight" response which occurs in both humans and animals. If you take away the option of flight and make a scared dog feel trapped and no other option than to fight ie. bite. We do not want biting to become part of any dogs learned behaviour so as far as is possible we avoid making any nervous dog ever feel trapped. Please take this into account and don't chase or corner any of the dogs.

Twice a day, the dogs are fed, let out and pens are cleaned out. Additional cleaning out, walking, grooming, training and everything else has to take place between these times. It is therefore important that we stick to our times and get the routine things done in the least possible time, especially if we have vets visits or building/maintenance jobs to do that day.

Sometimes it can take hours longer if someone isn't used to the routine or dogs won't come in from the yard because people they don't know are stood in front of their pens. Due to this it may be that during these parts of the day you are asked to just spend time with the dogs that are out, while staff let them out and do their pens. Although you may feel that you aren't helping with the physical labour involved, it is good for the dogs to be able to spend time & socialise with other people and allows us to get things done quickly and safely without any accidents of letting dogs out that shouldn't be out together. It then leaves the rest of the day free for other jobs and spending individual time with dogs.

Remember, the role of our volunteers is to keep the animals in our care as stress free as possible and to avoid situations that promote inappropriate behaviour. With staff and volunteers working together, we can reinforce good behavior that will help our dogs find wonderful homes. Always follow the guidelines of RSDR staff.

- Make sure the dog you are taking for a walk has been approved.
- Please inform the staff if anything of concern occurs during your walk. Especially if it involves a fight, a bite, a scratch, or any unusual behavior.
- All RSDR dogs must be kept on leash at all times when not within the Dog Shelter grounds. Please put your hand through the loop on the leash and keep our dogs on a short leash.
- Choose a dog appropriate for your size and skill level. If the dog is walking you; the dog is too much for you to handle or you are not skilled for this size/type dog. Do not handle a dog that makes you feel uncomfortable or nervous; the dog will know!
- Maintain control of the dog at all times.
- Before you remove a dog from a kennel, make sure that the leash you are about to use is in good repair.
- When removing a dog from a kennel, open the door and have a leash ready to slip over the dog's head and adjust as needed. Keep your voice soft and even.
- Always approach the dogs calmly and encourage them to be CALM and QUIET before you remove them from the kennel.
- Do not allow dogs to jump up for play bite. Ignore unwanted behavior or correct them calmly. Never HIT a dog. Remember, we want them to learn good habits, so that we can find good homes for them.
- Never leave a dog unattended. Whether you are walking, bathing or playing with a dog, you must be with the dog at all times.. Remember, when you take a dog out, you are responsible for that dog until you return it to the kennel.
- Do not let other people, children, or other dogs play with or pet any RSDR dog.
- Please always take poop bags with. Picking up dog poop makes us good neighbors and it's the law.
- If a dog gets away from you, don't chase the dog! Squat down and call the dog's name and the dog should come back to you. If you chase them, they think it's a game and will keep running away.
- Take the dog for a brisk 30 minute walk, or as directed. If your dog seems tired, stop off and sit with the dog for a rest.
- Before re- entering the yard, please wait until a member of staff knows that you are back incase any other dogs are out at the time.

Cat Guidelines

Cats are not dogs. They respond to stimuli in different ways and have different ways of showing their stress and happiness. Volunteers are critical in helping them to be happy and well adjusted during their stay here. A few tips on general cat behavior and on cat behavior in a shelter environment can be helpful in learning to handle them properly. From the familiar housecat to the 500 pound tiger, felines are social animals. Domestic cats form bonds with their owners, as well as with other cats and species in their household.

Cats have especially expressive body language. Arching the back and puffing up the tail are warning signs: The cat is telling you to stay away! Hissing, flattening ears and backing away are defensive signs. Vocal communications also clues us in to what a cat is thinking. A hissing, growling or spitting cat should not be handled. Purring is generally associated with contentment, but cats often purr when they are stressed. Sick or injured cats also purr.

When cats first arrive at the shelter, they are often stressed. They are in an unfamiliar, frightening environment. Volunteers can help reassure the cats and put them at ease. Speak softly and keep your voice even. Pet them gently. Move slowly around them. Handle them firmly and with confidence, but carefully. If you are assigned to work with a cat that is exhibiting frightened behavior, leave it alone and report this to the staff. They will give it time to calm down and will work with it later. Once cats have been here a while and have calmed down, they often seek attention. Do not underestimate how important you are, if you spend time grooming and petting cats. Never go home thinking that you didn't do anything important because you "just played with the cats." What you did is very, very important!!

- Reinforce good Behaviors. Don't tolerate things that you might tolerate from your own cats (play biting, etc...)
- Discipline by tone of voice or by placing two fingers on the cat's forehead with a gentle push – no hitting or yelling!
- Keep your volume level low. Don't get excited. Monitor visitors, especially children, for too much noise or activity.
- If a cat escapes from its cage or the observation room, follow it and say "loose cat" as you walk (not run). Others will join you in the catching the escapee.
- Pay attention to the cat's body language. Cats aren't always predictable.
- Take health precautions. Obey signs regarding sick rooms, wash hands often; don't touch your eyes, etc...
- Report observed behavior or health problems, including fur mats, excessively long claws, etc...
- Brushing is good. Ask for help in dematting, if it is serious.
- Wear old clothing. Watch out for earrings and contact lenses.
- Fill water bowls, if empty. It's ok to give a few treats to the cats.
- When visiting the Cat Loft, please enter and leave quickly and be careful not to let any cats escape.
- Never take any cats out of their cages unless first asking.
- Please wash your hands between petting different cats to prevent spreading germs.
- Gently approach cats that are loose in the room and pet them.

Prices start anywhere from 30-40 leva per person per night. Please check websites for pricing.

RSDR recommend the following motels to book in Rudozem

If you are unable to book accommodation yourself, we can book for you but please give 3-4 weeks in advance for bookings.

DAILY TRANSPORT

Daily transport from the place of accommodation to the Dog shelter must be also the responsibility of the volunteer.

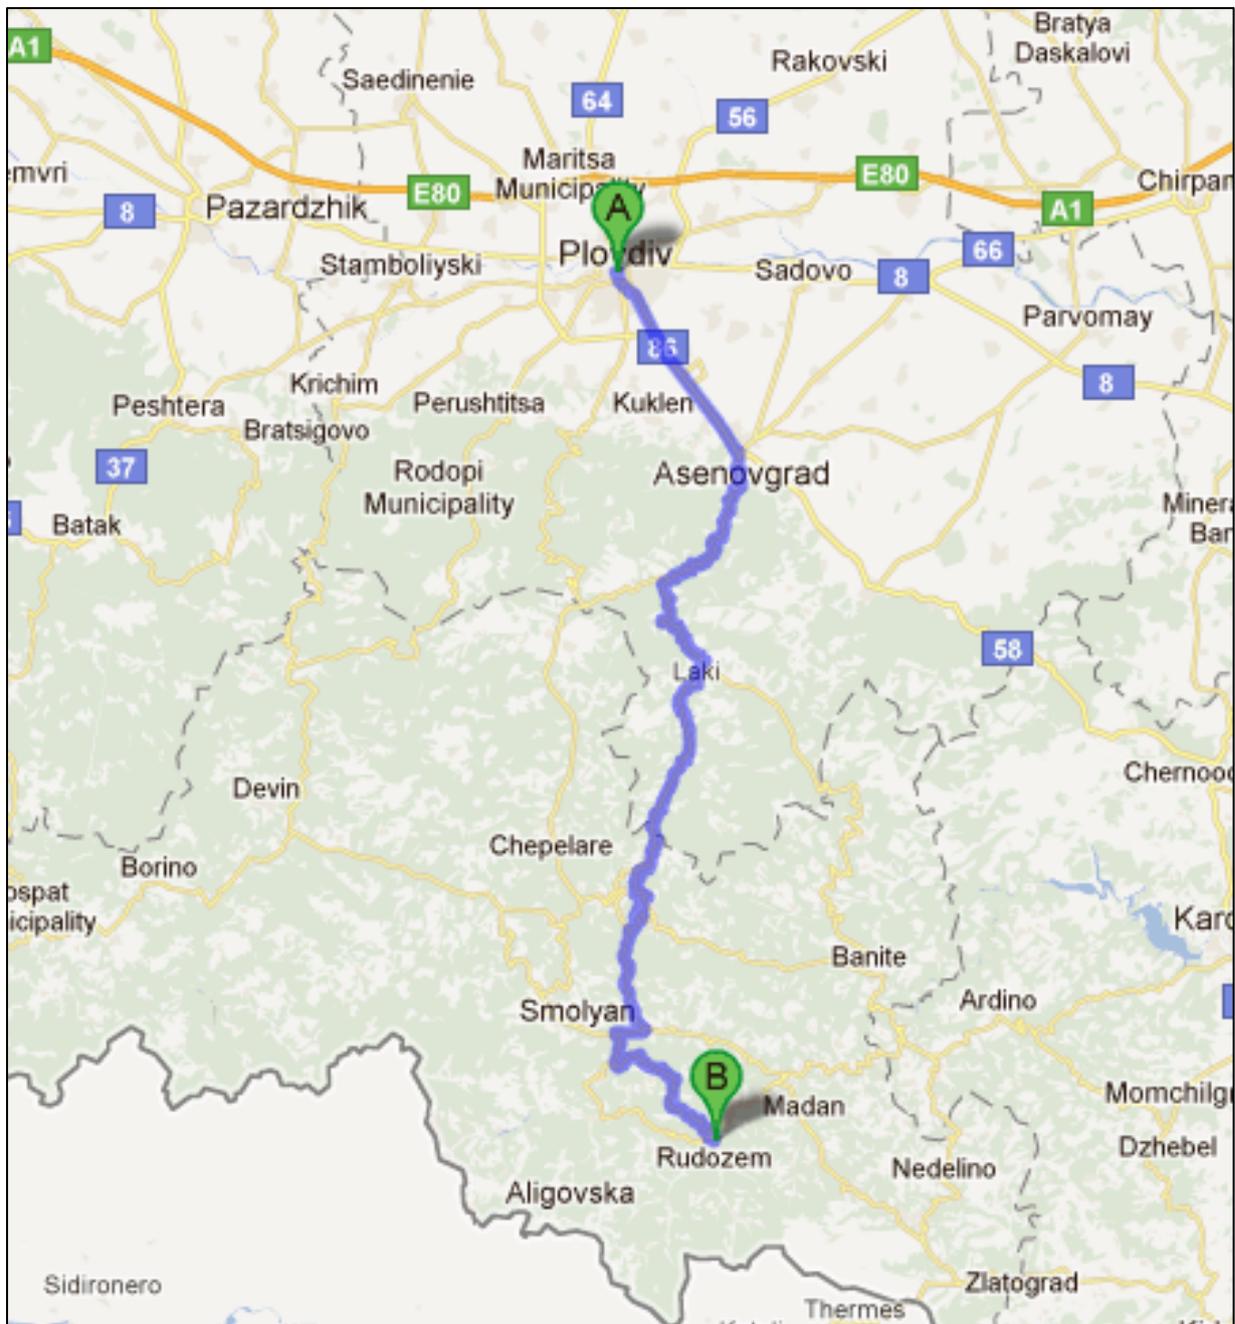

Options of travel:

- Hire car rental (obtained in Plovdiv or Sofia) - **recommended**
- Taxi - There are unfortunately no taxis in Rudozem. There might be one that comes to Rudozem every now and then but it isn't very often.
- Bus: (Rudozem (Рудозем) to Elhovets (Елховец)

If you do not have your own transport, and decide to book a motel in the town Rudozem, and not near the shelter, you will have to catch a bus back and forth each day. We don't know the times of the bus or how much it is. Diane said there are no bus time tables like they do with bigger towns. There is mainly just a guy in a transit with seats going to and from the villages. If you decide this option, we will get one of the shelter boys to stop them when they are on transit to check on times and costs.
